

Melexis

INSPIRED ENGINEERING

Fresh Graduate Program 2018

Entry level engineer

Melexis designs, produces and markets micro-electronic solutions that provide added value for customers in the global automotive, industrial and consumer markets. For over 25 years, technical innovator Melexis has made significant contributions towards a sustainable future. The integrated semi-conductors that Melexis produces address the worldwide demand for greener, safer cars, smarter machines and more environmentally friendly buildings.

Melexis Bulgaria is currently expanding its team and we are looking for highly motivated individuals to join our Fresh Graduate Program 2018!

Your future career start in one of the following teams:

- Design
- Test
- Product Verification
- Applications
- Manufacturing/Hardware

You are:

- Last year of your university study or just graduated in the field of electronics
- Inspired to boost your professional development by working on breakthrough projects in the sphere of electronics
- Eager to join the global team of a leading player in automotive semiconductor sensors
- Independent English user

We offer:

- A challenging career start-up in a dynamic high-tech international environment
- The opportunity to take ownership of your professional passion in order to contribute to the success of the company
- An enjoyable, team-oriented and professional atmosphere in a flat-structured organization
- Full-time employment starting with 6 months extensive training

Milestones:

- Applications: March-April
- Interviews: May
- Contract sign: June
- Program Start: October, 1st
