

Bulwork™ is the first IT/BPO recruitment agency in Bulgaria with more than 15 years of significant presence in the market. The company has established a reputation for delivering high quality services to both candidates and clients.

Our client is a leading software company focused on Enterprise Collaboration, Cloud, Big Data and IoT, Enterprise Mobility and Outsourcing. It has offices in several and it is still growing.

Due to the start of a new project with state of the art technology stack, together with the company we are now building a whole new team of Java experts in Bulgaria Sofia/Plovdiv. Are you ready to be part of the talented, global team as:

JAVA BACK-END DEVELOPERS

Main requirements:

- 2+ years of professional experience in Java development
- Good knowledge of iBatis or other Database Wrapper (for example Hibernate)
- Professional experience with relational databases like Oracle, MySQL or DB2
- Experience in Unit and integration tests and/ or integrating SOAP Services
- Knowledge of Velocity template engine or other Java-based template engine
- Good working level of English (both written and verbal)

In return the company can offer to you:

- Competitive salary
- Additional health insurance
- A chance to work on interesting projects and gain experience with cutting-edge technologies
- Trainings and certification programs
- Company sponsored events and teambuildings
- You can join any of company's social group of interests (e.g. Extreme Sports, Football, Table Tennis, etc.)
- Standard or flexible working hours

If you are interested in this offer, please forward your CV in English directly to:

galina.nankova@bulwork.com

Our services are free of charge for candidates. Only shortlisted applicants will be contacted.
