

About Bulwork:

Bulwork is the first IT/BPO recruitment agency in Bulgaria with 15 years of significant presence in the market. The company has established a reputation for delivering high quality services to both candidates and clients. The company respects the candidates and always strives to find the most suitable and challenging job for them.

About our client:

Our client is a leading company which has developed its own software in order to create innovative recruitment and marketing services for business schools. The company is always striving for new ideas and revolutionary services in the higher education industry and now is looking to hire positive and motivated IT geek for the position of:

MIDDLE LEVEL PHP DEVELOPER

Main duties:

You will actively participate in the design, optimization and support of the internal company's software. You are going to be a part of the new project and have a role in the initial conceptual work of the company's international team.

Requirements:

- * At least 2 years of experience in OOP PHP;
- * Hands-on experience with HTML5 / CSS3;
- * Strong experience with JavaScript and jQuery;
- * Very good knowledge with MySQL;
- * Experience with API integration and CMS customization;
- * Good knowledge of responsive website design and standards.
- * Good command of English;

The company offers:

- * Competitive salary
- * Room for you to do things on your way and to try new approach in your work
- * Standard working hours
- * Company internal regular trainings and team buildings events.

If you are striving for the newest technologies and you are thinking out of the box, then don't hesitate and send your application (CV) in English at **ivelina.petrova@bulwork.com**

Confidentiality of all applications is assured. Only short-listed candidates will be contacted.

The candidates do not pay any taxes to the agency – the services are FREE OF CHARGE.
