

Summer Practice 2018

Internship in R&D Department

Melexis designs, produces and markets micro-electronic solutions that provide added value for customers in the global automotive, industrial and consumer markets. For over 25 years, technical innovator Melexis has made significant contributions towards a sustainable future. The integrated semi-conductors that Melexis produces address the worldwide demand for greener, safer cars, smarter machines and more environmentally friendly buildings.

Melexis Bulgaria is currently looking for highly motivated individuals to join our Summer Practice Program 2018!

Your summer internship in one of the following teams:

- Design
- Test
- Product Verification
- Process
- Product Quality Assurance
- Manufacturing/Hardware

You are:

- 3rd + year of study in the field of electronics
- Inspired to give start of your professional development by working on breakthrough projects in the sphere of electronics
- Eager to join the global team of a leading player in automotive semiconductor sensors
- Independent English user

We offer:

- Paid full-time internship engagement (1 week paid vacation)
- A challenging practice in a dynamic high-tech international environment
- The opportunity to take ownership of your professional passion in order to contribute to the success of the company
- An enjoyable, team-oriented and professional atmosphere in a flat-structured organization

Milestones:

- Applications: March-April 2018
- Interviews: May 2018
- Contract sign: June 2018
- Program duration: July, 16th – September, 14th

Can you make the difference?

If you believe you can, apply by going to:
