

Intern – Software Engineer

VMware provides internship program for talented students in the area of the software technologies. By becoming part of our program, you will participate in an internal Research & Development project. Especially dedicated experienced engineer will be mentoring you throughout the internship by introducing you to the VMware environment and providing you with guidance, regular performance feedback and recommendations. The duration of your internship experience will be 3 to 6 months. The internship is located in Sofia, Bulgaria.

Successful interns are:

- With good knowledge of OOP and/or any of the following programming languages and technologies: Java, C++, Python, XML/HTML, CSS, JavaScript
- Data Structures, Algorithms, Design patterns
- With good command of English
- Agile and highly adaptive
- Willing to take ownership and responsibility
- Willing to innovate, learn and share knowledge
- With good analytical and problem solving skills
- Able to execute and deliver

Reasons to join VMware:

- Opportunity for technical and personal development through working on real-life projects
- Mentor-ship by experienced engineers, participation in regular technical talks, timely performance feedbacks and being in-touch with teams of world-wide IT professionals will help you develop your potential
- Unique atmosphere where the emphasis is on excellence, innovation, openness, collaboration and balance
- Healthy work environment, ensured by food and beverage program, sport activities, open communication
- Opportunity to choose between working schemes, fitting both yours and the project's needs
