

## Software Developer

UNIQA Software-Service Bulgaria is a software development company part of UNIQA IT Services GmbH (Austria). We are specialized in building enterprise applications for the insurance companies within UNIQA Group (Austria).

We are looking for **Software developers**.

Our jobs involve developing state of the art, strategic solutions in an international context as part of a leading European Insurance Group. You will work in a multinational team focusing on Point-of-sales and customer service applications based on Pega, a low code development platform by Pega Systems.

### Responsibilities:

- Implementation of User Stories on the Pega platform from design through to unit testing
- Work in teams together with Business Analysts, Testers and Project Managers
- Bugfixing
- Documentation of completed solutions
- Packaging and Deployment of Releases

### Requirements:

- Open and highly motivated to learn new technologies and concepts (Pega PRPC)
- Knowledge of object-oriented programming, strong preference on Java
- Knowledge of web technologies and relational databases
- Knowledge of APIs, especially SOAP/REST
- The ability to take a user story and analyse it into user interface, data and process components
- Ability to critically test your own implementation
- Fluency in English – both written and spoken
- University degree in Computer Science or similar

### Good to have:

- German language skills
- Experience in business process management and case management implementations
- Collaborative and team oriented

### Compensation & benefits:

- Very stable work environment, as part of large Banking and Insurance Multinational Group
- Flexible work program, respecting your own private time
- Full-time, unlimited employment contract
- Attractive remuneration package
- Additional health insurance
- Remote work possible
- Food vouchers
- Exchange of experience and training with international professionals, as a premise for personal development
- Career development opportunities
- German language courses
- Team building events held both in Bulgaria and Europe
- Great workplace, office location close to the Plovdiv city center

**Are you willing to join our Team? Apply today to be considered for this great opportunity!**
