

At Intuitive, we are united behind our mission: we believe that minimally invasive care is life-enhancing care. Through ingenuity and intelligent technology, we expand the potential of physicians to heal without constraints.

As a pioneer and market leader in robotic-assisted surgery, we strive to foster an inclusive and diverse team, committed to making a difference. For more than 25 years, we have worked with hospitals and care teams around the world to help solve some of healthcare's hardest challenges and advance what is possible.

Join a team committed to taking big leaps forward for a global community of healthcare professionals and their patients. Together, let's advance the world of minimally invasive care.

#### **Job description: Intern Industrial Engineer**

As a mandatory intern, you will support our team in driving continuous improvement in our production processes. We look forward to involving you in our projects and are excited to hear your perspectives and ideas. During your internship, you will have the opportunity to learn about the entire spectrum of industrial engineering tasks while working closely with production.

#### **Roles and responsibilities:**

- Active participation in and management of your own improvement projects.
- Carrying out time studies, line balancing and capacity assessments.
- Data analysis and evaluation.

#### **Qualifications:**

- Degree in industrial engineering or similar field.
- Basic knowledge of lean production is desirable.
- Good written and communication skills.
- High motivation and a proactive work attitude to take the initiative and work efficiently with others in the team.
- Ability to work independently and handle multiple projects
- Good English skills.
