

### **About us**

Bulwork is the first IT recruitment agency in Bulgaria with 25 years of excellence in the market. The company has established a reputation for delivering high-quality services to its clients. We respect the candidates' wishes and strive to provide the best service by finding the most suitable and challenging job for them.

### **Our client?**

A technology provider with 20 years of experience in the development and maintenance of IPTV solutions. The organization offers a comprehensive platform for delivering television content through the internet, alongside integrated systems for subscription management, billing, and operational processes.

We are currently supporting them in recruiting a junior IT Geek who will have the opportunity to work for them in the position of:

## **Junior Web Developer**

### **Expected skills, knowledge, and experience:**

- 6+ months of experience as a Web or JavaScript Developer
- Student or a fresh graduate in Informatics, Software Engineering, Computer Science, Telecommunications, or a related field;
- Excellent knowledge and some experience with JavaScript, HTML, and CSS
- Very good command of English
- Strong motivation to develop your skills in software programming further, and excellent problem-solving skills
- Previous participation in national contests or olympiads in Mathematics or Informatics is considered an advantage.

### **The company can offer:**

- Opportunity to gain experience in IPTV technologies and enterprise software systems;

- Competitive salary;
- Collaborative and supportive team culture;
- Exposure to real-world projects

If you're interested in this job opportunity, don't hesitate to send us your CV in English or your LinkedIn profile to [office@bulwork.com](mailto:office@bulwork.com)

The confidentiality of all applications is assured. Only shortlisted candidates will be contacted!

The candidates do not pay any taxes to the Agency – the services are FREE OF CHARGE.
